### THE BUILDING:

The Trade Center is a three-story brick building with full garden level. It has intricate crown molding and historical finishes throughout -- built in 1912, it was once the administration and trade hub of tannery operations at the Pfister and Vogel Leather Company in the early 20th Century. Today, the building boasts a modern office buildout with a central open staircase. Beautiful moldings and pillars, a historic boardroom with fireplace, and former bank vaults on every floor are just a few of the unique offerings of the building. Striking city views, impeccable freeway visibility, and free parking for office tenants and their guests make this an incredible destination for any user.

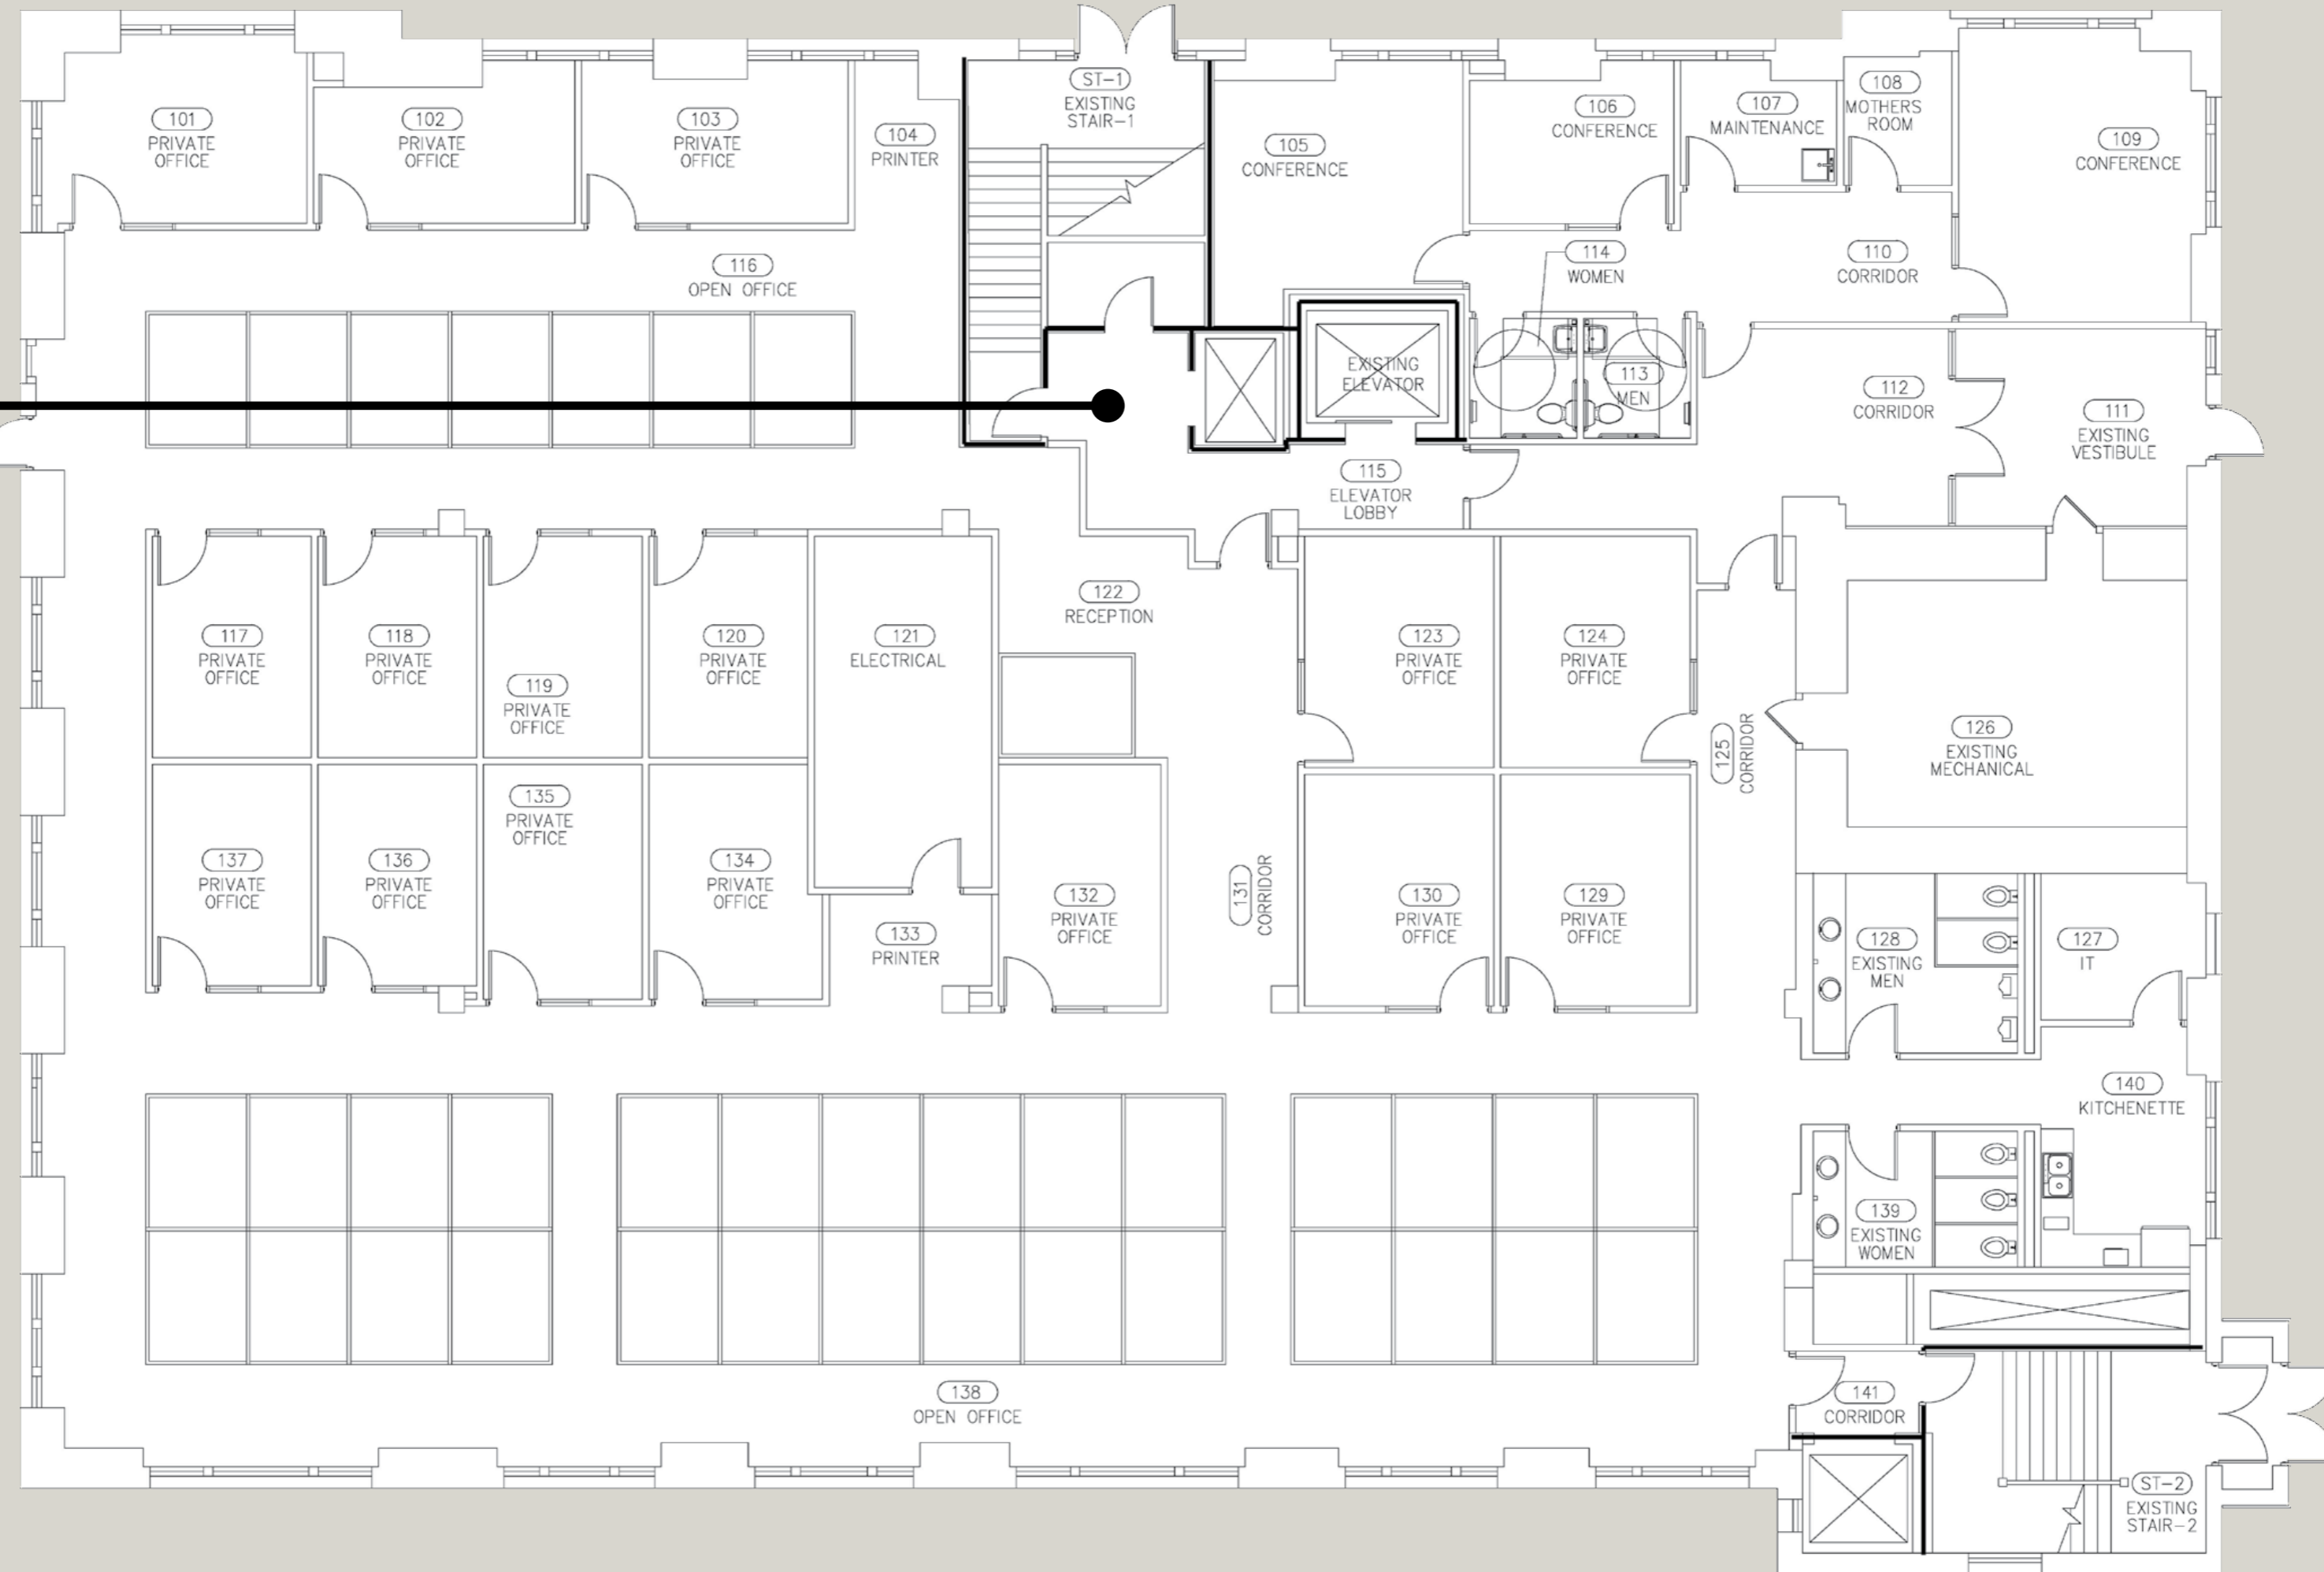

Full Plug 'n' Play options with furniture are available, as well as building signage.
